Projects

My Portfolio — [Link](#) [Github](#)
◦ A personal portfolio website showcasing my skills, projects, and contact information.
◦ Tools Used: HTML5, CSS3, Javascript, Bootstrap

College Management App — [Apk](#) [Github](#)
◦ A cross-platform app for managing student and faculty data, attendance, and events.
◦ Tools Used: Dart, Flutter, Firebase, Figma

Tic-Tac-Toe — [Link](#) [Github](#)
◦ A two-player interactive Tic-Tac-Toe game with winning logic, turn indicators, and a clean UI. Includes restart functionality and visual highlights for winning moves.
◦ Tools Used: HTML5, CSS3, Javascript

To-Do Web App — [Link](#) [Github](#)
◦ A simple to-do list manager with add, delete, edit, favorite, completion, and other features.
◦ Tools Used: HTML5, CSS3, Javascript

Hip-Hop Website — [Link](#) [Github](#)
◦ A dynamic and interactive website where users can play and mix hip-hop tracks using a grid-based interface. Features categorized sound pads (drums, bass, FX, and vocal) with MUTE and STOP controls, ensuring only one sound per column plays at a time.
◦ Tools Used: HTML5, CSS3, Javascript
